MAJD HANNA

FRONT-END DEVELOPER

Tartous,Syria | +963981558640 | mjdhna67@gmail.com | GitHub | LinkedIn

---

PROFESSIONAL SUMMARY

Frontend Developer and Information Technology Engineer with hands-on experience building modern web applications using React, Next.js, TypeScript, and JavaScript. Experienced in REST APIs, Postman, Git/GitHub, responsive UI development, distributed systems, and software design patterns. Equipped with strong problem-solving skills.

PROFESSIONAL EXPERIENCE

Focal X — Software Development Trainee **Jul 2023 – Nov 2023**

- Worked with the team on a graduation project: an AI-powered static platform, contributing to the web application and implementation of core functionality.
- Gained practical experience in collaborative development, modern frontend technologies,APIs and version control.

Phoentiech — Software Development Trainee **Oct 2025 – AUG 2026**

- Contributed to Wishly, a multi-vendor gift shopping platform designed to connect customers with multiple vendors.
- Worked on frontend features, API integration, responsive interfaces and application workflows

SELECTED PROJECTS

LEARNOVA:

- Developed a comprehensive educational platform featuring interactive course content, subscription management, and an integrated task-tracking system.
- Built with: [React js, Redux, Tailwind, i18n, Framer Motion]

WISHLY:

- Collaborated with Phoentiech to build a multi-vendor gift shopping platform, featuring streamlined gift purchasing, wishlists, delivery tracking, and social connection tools.
- Built with: [React js, Redux, Tailwind, i18n, Framer Motion]

AI STATIC PLATFORM:

- Developed an AI-focused static web platform as a graduation project in collaboration with Focal X, ensuring a highly responsive and optimized user experience.
- Built with: [React js, Bootstrap, Framer Motion]
